The entire village thought Jack was so smart, strong and witty, but when the family ran out of money it was Jacqueline who used her brain to get them out of trouble. Follow Jackie up the beanstalk as she shatters stigma to discover it wasn't because she was less capable, but because she was made to believe so. Now, she has the chance to prove her worth. Whether you are young or old, this fun and interactive one-woman show is important for everyone to see. Not because it's unique, but because it's not. It is the story of many girls.

Lewis, Clark & York, a 3-actor educational reenactment, introduces a third figure central to the famous historical expedition. A childhood servant of Clark, York was crucial to the journey's success. York hunted for food, smoothed relations with Native Americans, cared for the ill, and discovered new plants and animals throughout the trek across America. York was also responsible for striking a friendly relationship with Sacagawea, daughter of a Shoshone Chief and wife of Toussaint Charbonneau, the French fur trader hired as an interpreter for the journey. This performance teaches children the value of tenacity, strength, and perseverance found in two often-overlooked, unsung heroes of the great Lewis and Clark expedition.

Abiyoyo is based on a South African folk tale about a giant who eats everything in sight—cows, goats, and even children! This one-man story telling experience will encourage participants to face the monsters in their own life with honesty, courage, and strength of spirit. Audiences will learn that Abiyoyo just wants to be recognized. Brought to the West by Pete Seger as a bedtime story for his own children, the original South African folktale takes on the attributes of the storyteller themselves, implying that each storyteller adds something different to the tale. *Abiyoyo* will be brought to life through traditional South African dance, music, and cultural nuances that address fears that speak to us all.
