TCT WorkShops

TCT ON TOUR WORKSHOPS expand your students' appreciation for learning with hands-on experiences that are aligned with your curriculum, allowing students to gain skills in both the arts and non-arts subject areas. Our WorkShops bring expert Arts Integration Specialists directly into YOUR classroom for both Creative Play and Curricular Play programming. WorkShops are \$300 per session. Additional travel fees may apply to locations 50+ miles away.

CREATIVE PLAY WORKSHOPS are immersive and designed for a classroom setting for up to 30 participants in similar grade levels. Geared to a younger audience in grades PreK-4, these experiences are very interactive, participatory and hands-on. They can fit in your classroom or multi-purpose space.

CURRICULAR PLAY WORKSHOPS are more presentational in nature and designed to be an assembly program for a larger audience but still highly interactive. These programs are geared to students in grades K-6 and are perfect for auditoriums and gymnasiums, as well as smaller spaces.

TCT ON TOUR WORKSHOP RESIDENCIES bring our expert Arts Integration Specialists into your classroom to use the performing arts as a medium to expand your students' learning capacity, along with improving social and behavioral skills, and developing and encouraging multiple intelligences. Residencies can be customized to your curriculum needs and tailored to fit the necessary time table for your program. They are available for grades PreK-12 and are designed to take place in a classroom setting for up to 30 students per session. Residencies are \$1,500 for a 6-8 week session and \$2,000 for a 9-12 week session

TCT Academy

Do you have a student that would benefit from private dance, drama, or vocal music classes?

TCT offers individual private lessons in several disciplines, with flexible times throughout the academic year (September through May), taught by our own TCT staff of professional teaching artists.

Both students and adults can take a deeper dive into areas such as dance, drama, and voice. Students especially can benefit from Audition Prep, geared specifically for strengthening audition material for both local and college auditions.
